

IDR Speaker Spotlight Series Presents...

***Visual Communication Design: A series of  
(mostly) Multi-Disciplinary Collaborations***

**MONDAY NOVEMBER 7  
12—1 PM  
MOSS ARTS CENTER  
LEARNING STUDIO**

Lunch and refreshments will be provided **FREE!**

Come connect and challenge your perspectives on bridging the arts and sciences for an interdisciplinary approach to research!

**Meaghan Dee** is Chair of Visual Communication Design Program in the *School of Visual Arts* and a member of the *Human Centered Design Interdisciplinary Graduate Education Program (IGEP)*. With degrees in *design* and work experience in *architecture*, she is no stranger to interdisciplinary work. She will discuss her work bridging *arts* and *sciences*, such as her contributions on the *ESCHER Humanoid Robot Project*.
